DEGREE 10 SIGN 11 - FLOWING FREELY

THE SEQUENCE:

In the Procedure of Heaven,

After I am moving and walking my personal virtues and inclinations,

Then, I am acquiring a way that is proper and a place that is fitting for myself within the particular set of circumstances.

When I am acquiring a way that is proper and a place that is fitting for myself within the particular set of circumstances,

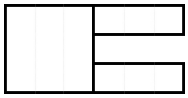
Then, I am occupying a fitting placement in a way that is content, relaxed, and able to develop freely.

Consequently, in the Procedure of Heaven,

The Sign of Flowing Freely follows after the Sign of Treading and Walking.

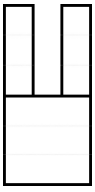
THE SYMBOLISM:

In the Sign of Flowing Freely,



The internal space is being occupied by the symbolism of Being Led by Heaven, and
The external space is being occupied by the symbolism of Yielding Heaven on Earth.

In the Sign of Flowing Freely,



The foundation is composed of the symbolism of rising upward while Being Led by Heaven, and
The development is composed of the symbolism of lowering one's own priorities while Yielding Heaven on Earth.

The symbolism of the internal foundation and the symbolism of the external development are both interacting in harmony with one another.

The foundation is Being Led by Heaven to rise upward and to move outward, and
The development is lowering its own sense of self-importance and is dutifully internalizing the way of Yielding Heaven on Earth by Being Led by Heaven.

In this way, the symbolism of both portions of the Sign of Flowing Freely are both fully developing.

Metaphorically, this full development of Yielding Heaven on Earth by Being Led by Heaven is represented by a lush development of everything that exists in a heavenly world.
